

**The [Foundation CIGREF](#) launches
its third call for proposals related to the international research
programme on Information Systems**

Paris, 9th February 2012 – This new call for proposals is the third to be published by the [Information Systems Dynamics](#) (ISD) international research programme; the programme aims at supporting research projects studying the dynamics of information systems use across five dimensions: Strategic, Organisational, Societal & Ethical, Regulatory, and Technological. The ISD Programme research agenda can be downloaded on the website of CIGREF Foundation at: <http://www.fondation-cigref.org/call-for-projects-2010/>

The third call for projects, concerns the following themes:

- Future Entreprises Design 2020 (WP 6B)
- Economics of digitality (WP 8)
- Maturity models for digitality, performance rules and standards (WP 11)
- Managing IS /digital spaces & functions in 2020 (WP 12)

This third call also concerns research notes related to the following themes:

- Ubiquitous networks (WP 4)
- Technological convergence, digital use, and digital materiality (WP 7)
- Intellectual property rights and regulation (WP 10)

This call for proposals is open to research institutions (public research institutions, universities, *specialist graduate schools*). International teams are strongly encouraged to participate. This call will open for applications on 6 February 2012. The deadline for submitting proposals is April 6 2012.

All the documents related to this call for proposals and for electronic application are available and downloadable on the website of the Foundation CIGREF.

About FOUNDATION CIGREF (<http://www.fondation-cigref.org/>)

The [Foundation CIGREF](#) (under the aegis of Foundation Sophia Antipolis) was established in June 2008 to conduct an international research programme, called ISD (Information Systems Dynamics), designed to "better understand how the digital world will transform the way we live and do business". The Foundation is chaired by Pascal BUFFARD (CIGREF President and Chairman AXA Group Solutions). Jean-Francois Pepin is the Secretary General. The Scientific Programme is coordinated by [Professor Bounfour](#) (University Paris-Sud 11).
